### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-7 are allowable.
2. Claim 1 is allowable because none of the prior-art documents disclose an auto-collimator applying light from a light source onto a measurement-subject article comprising an optical splitting element provided between the convex lens and the concave lens for splitting off a portion of the return light traveling back from the measurement-subject article for projecting said light onto a second screen, in combination with the rest of the limitations of claim 1.
3. Claims 2-7 are allowable because they are dependent on independent claim 1 or an intermediate claim, and they include all the allowable limitations of the parent claim(s).
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
